**COMPUTERIZED MEDICAL BILLING SOLUTIONS SINCE 1978**

**TCXMED PRACTICE MANAGEMENT SOFTWARE**  
 All prices and specifications subject to change without notice

**TCXMED** is highly sophisticated, easy to use Practice Management and Medical Billing Software. With over three decades of experience in the medical billing industry, and in alliance with software developers that represent a total of over 100 years experience and thousands of users, Tele Comm provides practice management software at a fraction of the cost of comparable packages. Features include Microsoft Office integration, built in HL7 interface for EMR/EHR, and compatibility with old and new Microsoft products including the latest Microsoft Operating System, Windows 8.1. The software provides for electronic billing to all insurance companies, electronic receipt of insurance payments, electronic billing to patients, and on-line and card swipe or pin pad receipt of patient payments. The appointment booking system will automatically check patient insurance eligibility, and has an appointment reminder feature that will call, email, and text patients, and can record voice messages from patients. There are hundreds of report options, and a query function that can be used to create custom reports that can be exported to Microsoft Office to produce letters and spreadsheets. All of this high technology is bundled in an easy to use package that can be run with or without a mouse. It is so simple to use that most offices are up and running on the day of installation. There are two options for using the **TCXMED** Software, purchasing and SaaS (Software as a Service). The SaaS does not require a server computer or a server backup.

**TCXMED PRACTICE MANAGEMENT SOFTWARE PURCHASE PRICE..... \$4,999.00**

This basic package will connect 1 user and one data base. Additional users and/or databases can be connected for \$99 each. This package includes 18 hours of training.
